SKILLS

Angular 2+, JavaScript / TypeScript, Java, Python, Secure Coding Practices, Git, SDLC, CI/CD, Agile Methodologies, Legacy System Modernization, Reverse Engineering, Mentorship & Cross-Team Collaboration, Currently learning: Django.

EXPERIENCE

HeroDevs, Remote - *Senior Software Engineer*

JUNE 2022 - PRESENT

- Provide long-term support for deprecated open-source packages by maintaining compatibility, applying security patches, and publishing CVEs for discovered vulnerabilities.
- Conduct in-depth research on legacy systems to diagnose issues, ensure stability, and deliver reliable security updates for enterprise use.
- Led enterprise-scale migrations of legacy web applications, working closely with client teams to break down legacy complexity and drive sustainable architecture.

Camp Bow Wow, Broomfield, CO - *Lead Software Engineer*

JUNE 2021 - JUNE 2022

- Led the development of a custom invoicing system, working across the Angular-based frontend and the PHP backend to deliver a seamless and reliable billing experience.
- Mentored junior engineers and elevated engineering quality across the team through best practices and collaborative development.

Sila Solutions Group, Shelton, CT - *Software Engineer*

JUNE 2018 - JUNE 2021

- Led front-end development of Angular-based web apps and contributed to full-stack architecture for enterprise and mobile applications.
- Worked as the primary developer interfacing with stakeholders and SMEs to clarify requirements, translate them into actionable tasks, and execute within an agile workflow.

Optum (UnitedHealth Group), Boston, MA - *Software Engineer Intern*

JUNE 2017 - AUGUST 2017

- Collaborated with an agile team of interns to develop an internal web tool to anonymize PHI/PII for secure data testing.
- Presented the tool and received executive approval to be implemented enterprise-wide.
